

ROBERT LLOYD SHEET METAL INC.

CUSTOMER PROFILE

PORTLAND STATE UNIVERSITY ENGINEERING LABORATORY BUILDING

The Portland State University Engineering building was completed in 2006 and is the most recent addition to the Norwest Center for Engineering on campus. The new 130,000 sq ft, five story building, has 41 labs, office space, classrooms, and a 120 seat auditorium. The new building also has many green features including geothermal heating and cooling, and water collection from the roof and plaza.

Robert Lloyd Sheet Metal's scope of work on this project included the following.

- Basic Mechanical Materials and Methods
- Supports and Anchors
- Variable Frequency Drives
- Mechanical Noise, Vibration and Seismic Control
- Mechanical Insulation
- Breechings, Chimneys and Stacks
- Air handling
- Fans
- Air Cleaning Equipment
- Low Pressure Ductwork
- Medium Pressure Ductwork
- Medium Pressure Exhaust Ductwork
